

**Rutland Historical Society Quarterly**  
**Vol. V No. I**  
**Hard Hat History (Autos)**

**This quarterly discusses the different ways in which the Rutland Historical Society learns about the recent past. As it states, Hard Hat History is just History with a Hard Hat. In this issue you will find short excerpts about everything from old motors built in Rutland, to pictures of people with their classic cars, to how the society plans on using a generous purse to continue its historical works. The quarterly goes into explaining how each form of discovery reveals the lives of the people that lived in that time period, and how even paintings can help us learn about the past**
