# Guide for Searching RutlandHistory.com

It is recommended that you **first use our search feature**, which is located at the bottom of any webpage, and the top of our Home page. This search is limited to locate keyword(s) within documents uploaded to the website (.pdfs), and text on webpages; it excludes material that has been linked from other websites, which is the majority of our uploaded material. When searching for people, be sure to focus on last names and maiden names.

Use the following chart to guide you to the **most applicable** pages relating to your topic to find more resources. These links often directs you to pages with more detailed lists that may require further browsing on the page. Note that date ranges may not be complete, but are provided as a guide of timeframe.

We also recommend using our Site Map to browse our webpages.

What are you researching?

| Events or Topics | People | Places / Buildings |
|---|---|---|
