“Keeping Wheels Turning at Central VT. P.S.C. (Part1)  
by David G. Zsido , examines the history of C.V.P.S. from its  
earliest beginnings in 1929 to the late '50's in this issue.

Its vehicle history encompasses horse drawn wagons; “high  
wheeler” trucks; bucket and digger trucks; diesel powered trucks  
to modern day trucks.

Mr. Zsido, a knowledgeable writer, traces these developments  
from its earliest days, accompanied by seventeen photographs  
which helps to bring about an immediacy to the past.
