

Rutland Historical Society Quarterly

Vol.48, No.2, 2018

“Keeping the Wheels Turning at CVMP (Part2)” written by David G. Zsido, a former first hand observer as the CVPS Risk Manager , continues his history of the Company from Vol.48, No.1.

Beginning in 1955, with the hiring of the first Director of Transportation, Glenn Anderson ,who retired in 1985, it ends with the final closing of the Corporation in October 2012.

As in the first volume there are numerous pictures accompanying the text. A listing of employees in various departments serving from the 1960's to 2012 is included. A worthy addition to the industrial history of Vermont.
