## *The Meaning of Church Membership*

**J**OINING the church means binding oneself to a group of persons who have publicly dedicated themselves to the service of Christ. To serve Christ means to cultivate in oneself the spirit of helpfulness and good will, and to try and spread this spirit as widely as one can. In becoming a church member one says both to God and to men that he will aim at all times to follow Jesus Christ.

To follow Jesus Christ means to be reverent and humble, truthful and honest, generous and forgiving, always trying to help others to live the same sort of life. To be a worthy church member one must have the temper and disposition of Jesus, taking his attitude to God and to man, looking at life from his standpoint, hating the things which he hated, loving the things which he loved, and doing in co-operation with others the kind of things which he did.

The kingdoms of the world are to become the kingdom of God, and his Son, and every member of the church is committed to working with others for the winning of this great victory.
